## RCI Ontario Chapter / Maritime Branch Masonry Wall Systems Course

RCI Ontario Chapter / Maritime Branch held a Masonry Wall System Course December 7<sup>th</sup> & 8<sup>th</sup> at the Delta Hotel in Fredericton, New Brunswick. This Course was a great success with 2 presenters and 23 attendees!

This course builds upon the fundamentals presented in Exterior Walls Technology and Science. The purpose of this course is to provide an in-depth understanding of masonry wall systems as they are designed as part of the building envelope system. Highlights of this program include: materials and their properties, masonry accessories, applicable design codes and standards, design and construction requirements, evaluating and repairing masonry wall problems, and maintaining masonry walls. This in-depth course is recommended for those that have taken Exterior Walls Technology and Science, and want to further expand on their knowledge of exterior wall systems.

**RCI Ontario would like to thank our presenters Mr. Peter Saunders from Bakor/Henry Company and Mr. Ted Sheridan from Fishburn Sheridan & Associates Ltd.**
