

Ontario Chapter

## RCI Ontario Chapter

RCI Ontario Chapter held a RRO Exam Study Session on Thursday, July 25 from 1 pm-5 pm. The topic covered was Thermal and Moisture Calculations and Design with Ted Sheridan as the instructor and 8 people attended the session.

Ted Sheridan instructing Chander Thusu, Sal Marra-MacInnes, Jean-Guy Levaque, Art Henderson, Kathiravel Karunanathan, Stephen Duncan and Derrick Moore, with Pierre Provost calling in remotely to the session.

### The Topics Covered Included:

Codes and standards covering thermal properties and moisture properties

Mechanisms of moisture movement through building envelopes

Air barriers, vapour barriers, thermal breaks and other barriers

Evaluation and testing of moisture content, permeability, air tightness, thermal properties

Roof moisture surveys and interpretation of results

Psychrometric charts

The next RRO Exam Study Sessions to be held by the RCI Ontario Chapter will be as follows:

Thursday, August 29	9 am- 12 Noon	Drainage Calculations and Design
Wednesday, September 25	1 pm-5 pm	Wind Calculations and Design
Wednesday, October 30	1 pm-5 pm	General Review

All study sessions are free and are held at the RCI Ontario Chapter Headquarters at the Toronto Construction Association's offices in the Executive Boardroom - 70 Leek Cres., Richmond Hill ON - they are also available by conference call.
